

# Installing WordQ Chrome:

The WordQ Progressive Web App designed for Chromebooks

Before you begin:

- ✓ To run or install WordQ Chrome, you must:
  - use Google Chrome browser v86 or higher,
  - have and be logged in to a Google account,
  - be connected to the internet.
  
- ✓ Make sure that you are logged into the Google account that you want associated with WordQ Chrome. This does not have to be the same email you used to request a free trial or purchase a license.
 

**Once your WordQ Chrome activation code has been associated with a Google account, it can not be undone.**
  
- ✓ 3rd party cookies must be enabled for 1Q4all.com, the secure website where WordQ Chrome is hosted. Learn how [here](#).

1. Open the Chrome browser and go to <https://1Q4all.com/WordQChrome>.

**If you see the message, “The Google permission dialogue was blocked by the browser’s popup blocker,” complete Step 2.** If not, [proceed to Step 3](#).

2. Click each of the following in order from a-d:

- a. the **Pop-up blocked icon** in the top right corner of your Google search/address bar,
- b. the button beside **always allow pop-ups and redirects from https://www.1q4all.com**,
- c. the **Done** button,
- d. the **Reload icon** to the left of your Google search/address bar.

3. When WordQ Chrome installs you will be asked to:

- confirm that the Google Account you are in is the one you want linked to WordQ Chrome,

- allow 1q4all.com to access your Google Drive – **you must check all the check boxes for WordQ Chrome to work,**

- choose a language vocabulary.

4. Once confirmed, you will be prompted to **activate** WordQ Chrome by selecting **Activate Trial or License** then entering the activation code you received in your email.

**Don't have a code?** Select **Request a Trial** or **Buy Now**.

5. Install WordQ Chrome:

- Click the install icon on the right side of your Google Chrome search/address bar.

Now you can access WordQ Chrome from your Google Account.
